Fairhaven Health Pregnancy and Ovulation Tests | Review and Giveaway

AUGUST 5, 2014 BY JENNIFER

I received a BFP Test Strip Big Bundle for this review. I was not financially compensated for this post. My opinions are my own and not by any means influenced by any other part

As I have mentioned before, the husband and I have decided that we are definitely going to try to get pregnant with bug number two this year. So we have been trying for the last few month, and since we have not succeeded, I wanted to improve my possibilities without relying on any types of treatments just yet and decided that Ovulation Prediction products would be the thing to try. So, I contacted Fairhaven Health to see if they would be willing to work with me on a review of their products.

Fairhaven Health offers a wide selection of fertility products
Fairhaven Health is dedicated to developing products intended to naturally promote fertility and pregnancy wellness without harm which is exactly what I was looking for. Their catalog includes preconception through pregnancy and nursing products.

Among the products offered by Fairhaven Health is the **BFP Test Strip Big Bundle** that includes 30 Ovulation and 10 Pregnancy Tests.

One of the first things I noticed when I started to research for Ovulation Prediction products was the high cost on most of these products, so the first thing I was happy about with the BFP Test Strip bundle was the price as you get 30 ovulation strips and 10 pregnancy tests for only \$36.50 (on sale right now for \$32.50).

Easy to use
The tests are very easy to use as all you need to do is to take some urine samples for which I usually get a new plastic cup, dip the strip for a few seconds and wait about 5 minutes to see the results.

Once the recommended time has passed, all you need is to look at the strip to see the results. You have three possibilities: positive, negative or invalid. On the envelope where the strips are packaged Fairhaven Health shows you the proper way to read your test...The test is really easy to read, but you need to make sure you are reading it correctly as all it is are stripes telling you the results and the position of the stripes defines the results.

Love the convenience of the strips
The strips are really discrete and easy to carry so even if you are away from home you can carry your kit with you with no problem at all.

Save lots of money with the pregnancy tests
I have been sick for at least two months and one of my main problems was vomiting, so the pregnancy test was a life saver...I wanted to make sure at all times that I wasn't taking some kind of harmful medication while pregnant, so I went through all the pregnancy tests pretty quickly...so I would have spent at least \$60 if I was using a competitors brand.
I found this kit to be very cost effective and easy to use, definitely a great tool for someone like me looking to have a baby and who does not want to break the bank in the process.

Win it:
Fairhaven Health has kindly offered one lucky Born 2 Impress reader, the chance to win a free **BFP Test Strip Big Bundle** that includes 30 Ovulation and 10 Pregnancy Tests!
