I'm Feeling Lucky

Dream Belly Butter

by GLAMAZINI on JUNE 6, 2012 in BEAUTY & STYLE, HEALTHY LIVING, KIDS (INI LUV THE KIDS)

Between my ferocious hunger and constant naps the days are blurring together in a fog of third trimester haze ... BUT ... I have to share this awesome product with ya'll because I LOVES it so muchly!

Dream Belly Butter by Fairhaven Health

I already spoke about it in a previous pregnancy vlog update video, check it out by clicking [RIGHT HERE](#).

I was contacted by the [Fairhaven Health](#) to do a review of this product a few months ago. I'd never heard of them or the butter but was excited because my tummy was growing by leaps and bounds, itching a lot and I was hoping to quell any stretch marks by doing everything I could both internal and external. Yes I know it has a lot to do with heredity but you can do your part as well by hydrating, eating lots of healthy fats and moisturizing.

Anyhoo, I've been using the belly butter for about a couple months now and I **absolutely LOVE** it!

I'm not typically a stickler for ingredients, I like products that work, but I can't help being impressed with what I see on the back of this container. Not bad at all.

When you flip it over you read that it promises to have a "rich luxurious texture and gentle refreshing scent" and let me tell you that is the truth Ruth! It is so thick and decadent it's amazing how it then it seems to absorb right into your skin leaving no real residue, just relief. It smell so pleasant and fresh and that just adds to the wonderfulness.

Look at how thick:

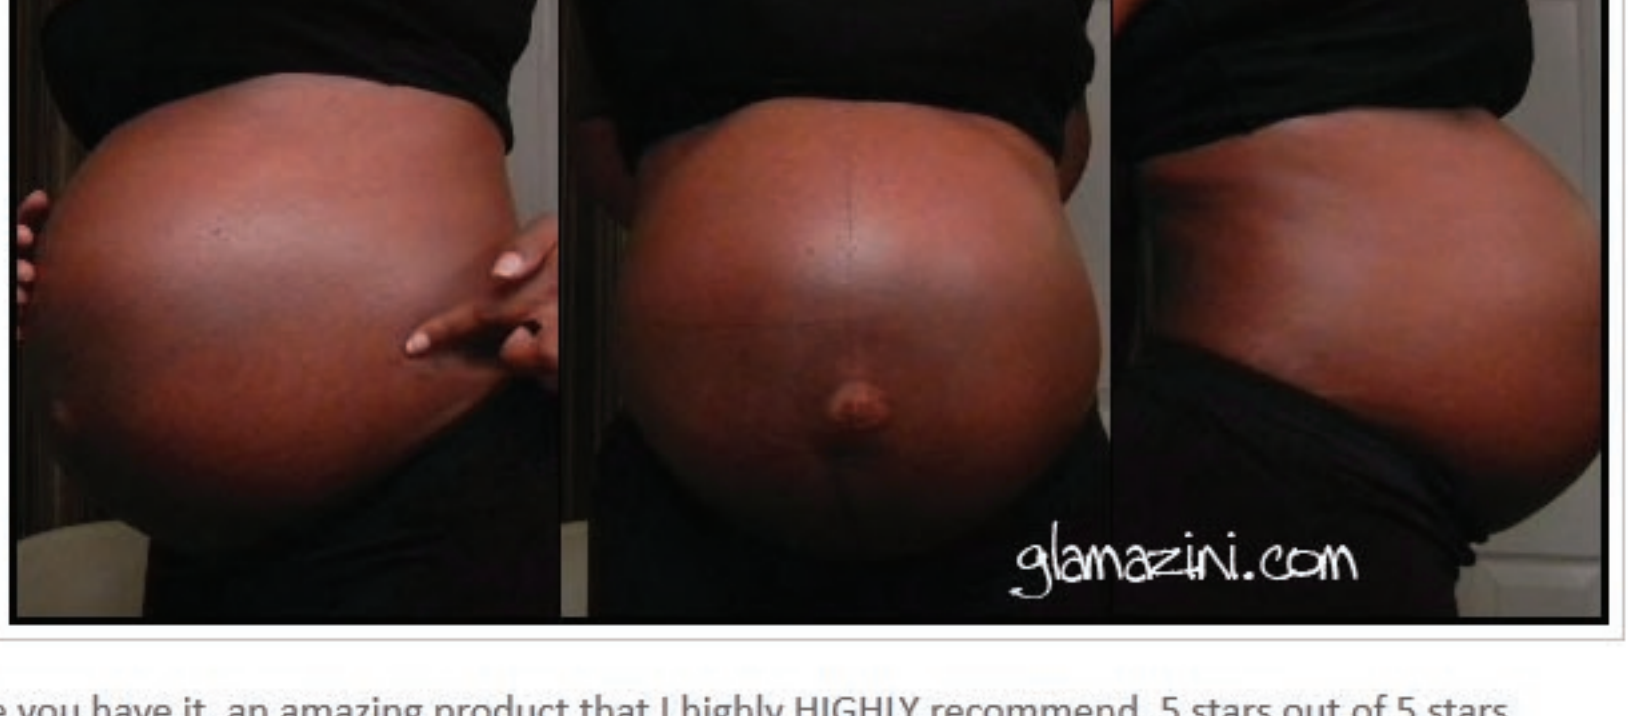

I could have turned the container upside down and nothing would've fallen out, it's that thick and wonderful. The label goes on to promise that this butter will help you "maintain the suppleness and elasticity of your skin as it stretches to accommodate your growing belly during pregnancy and to tone and regenerate your skin after childbirth".

I can't vouch for after childbirth just yet, but I can say that it has been heavenly ... dare I say 'dreamy' during the last lap of this pregnancy as my tummy has EXPLODED in size and I have yet to get a stretch mark. I also notice that I can put it on ONCE in the morning and not be itchy all day, which was not the case with the shea butter and other concoctions I was using prior.

Here's another shot of the rich thick texture:

and of course here's the belly shot:

There you have it, an amazing product that I highly HIGHLY recommend. 5 stars out of 5 stars.

Find out more or purchase at [Fairhavenhealth.com](#). Have you tried any of the Fairhaven Health products?

Until next time Glam Fam I wish you
Life, Liberty & The Pursuit of Nappyness,

~ini
