

## **Fairhaven Health's Milkies Freeze Wins Prestigious Cribsie Award for Best New Nursing Product of 2013**

*Fairhaven Health's Milkies Freeze received the prestigious Cribsie New Arrival Award, and was acknowledged as one of the best new products of 2013. The award honors the best new brands and products of 2013, as judged by the Cribsie Academy, a prestigious panel of industry leaders, experts, and celebrities.*

Bellingham, Washington ([PRWEB](#)) March 26, 2014 -- The [annual Cribsie Awards](#) recognized Fairhaven Health's [Milkies Freeze](#) as one of the best new products of 2013. The Cribsies recognize the best products, services, and websites for babies and tots, and announced the winners on March 7, 2014.

The Cribsie Academy, a panel of baby/kids industry leaders, experts and celebrities, evaluated all new product entrants across four criteria – innovation, style/design, marketability, and utility – and determined that the Freeze was worthy of the Cribsie New Arrival Award title.

The Milkies Freeze is a breast milk storage system that fits neatly and conveniently in the freezer. The Freeze helps organize breast milk in the order it was produced, so parents grab the oldest milk first. With the Freeze, simply collect breast milk in any milk storage bag, and place the bag on the metal quick-freeze tray located at the top of the Freeze. Once the milk is frozen, slip the bag into the Freeze storage system through the slot at the top, and the bag will fall to the bottom of the storage container. This easy-to-use “first in, first out” system helps ensure that you use the oldest milk first and none goes to waste.

The Milkies Freeze can store and protect up to 60 ounces of breast milk. Its efficient, space-saving design allows moms to store more milk without losing valuable freezer space. It disassembles for easy cleaning and all components are BPA-free and dishwasher safe!

The Milkies Freeze is a companion product to the [Milkies Milk-Saver](#), an innovative device that collects leaking breast milk from the non-nursing side while breastfeeding. The Milk-Saver has also been nominated by American Baby Magazine as a top Nursing product for 2014.

Both products are recommended by lactation professionals, learn more at [mymilkies.com](#).

### About Fairhaven Health

[Fairhaven Health](#) manufactures a line of natural, doctor-designed products to promote fertility, pregnancy, and nursing health. They provide ovulation prediction tools, natural fertility supplements, prenatal vitamins, and breastfeeding support products, all of which are manufactured in U.S. GMP-certified and FDA regulated facilities.
