

## **Fairhaven Health Breastfeeding Products Win 2014 Creative Child and Baby Maternity Awards**

*Fairhaven Health's Milkies Milk-Saver received the prestigious Baby Maternity Preferred Choice Award, the Milkies Freeze received the Creative Child and Baby Maternity Top Choice of the Year Awards, and the Milkies Nipple Nurture Balm received the Baby Maternity Seal of Excellence Award. These awards honor the best products for babies and mom in 2014, as judged by moms, moms-to-be, and child educators.*

Bellingham, Washington ([PRWEB](#)) July 01, 2014 -- The annual Baby Maternity and Creative Child Awards recognized three Fairhaven Health breastfeeding products as some of the best products of 2014. The Baby Maternity and Creative Child Awards acknowledge the best products for moms, babies, and tots.

Each year, moms, moms-to-be, and child educators evaluate all product entrants and the Creative Child Magazine staff provide a final tally. This year's group determined that the Milkies Milk-Saver was worthy of the Baby Maternity Preferred Choice Award.

The [Milkies Milk-Saver](#) is an innovative device that collects leaking breast milk from the non-nursing side while breastfeeding. The Milk-Saver is so easy to use. Moms simply slip the device into their bra before feeding, and then store the excess milk for another time. The Milk-Saver has gone through rigorous testing to ensure zero chemical leaching and contains no BPA or phthalates.

Fairhaven Health's [Milkies Freeze](#) also received a tip of the hat with the Creative Child and Baby Maternity Top Choice of the Year Awards. The Milkies Freeze is a breast milk storage system that fits neatly and conveniently in the freezer. The Freeze helps organize breast milk in the order it was produced, so parents grab the oldest milk first. With the Freeze, simply collect breast milk in any milk storage bag, and place the bag on the metal quick-freeze tray located at the top of the Freeze. Once the milk is frozen, slip the bag into the Freeze storage system through the slot at the top, and the bag will fall to the bottom of the storage container. This easy-to-use "first in, first out" system helps ensure that you use the oldest milk first and none goes to waste.

The Milkies Freeze can store and protect up to 60 ounces of breast milk. Its efficient, space-saving design allows moms to store more milk in less space. It disassembles for easy cleaning, and all components are BPA-free and dishwasher safe.

The [Milkies Nipple Nurture Balm](#) was also recognized with the Baby Maternity Seal of Excellence Award. This all-natural, organic nipple balm is designed to help soothe, protect, and heal sore or cracked nipples. Milkies Nipple Nurture Balm is lanolin-free, not tested on animals, and contains no artificial colors, preservatives or animal products.

All products are recommended by lactation professionals, learn more at [www.mymilkies.com](http://www.mymilkies.com).
